Friday **04/09/27** **1800-Until Completion**	**Final Psychomotor Exam**		

Additional Details:

All dates on this syllabus will be classes that are held at the Manassas Training Center. These classes are not optional, and you are expected to be there in person. During this time, the class will focus on the hands-on portion of the class with the occasional lecture provided. You are responsible for reading all chapters prior to coming to class. All chapter readings, quizzes, and homework are to be completed by the listed due dates on the syllabus at home.

All homework and quizzes will be accessed via the LMS. They will be designated according to the module they are assigned, due as you read those correlating chapters**.** You will have one attempt at the quiz and homework assessments. You may elect to work ahead if you choose on all LMS assignments, however this is not generally recommended.

Grading Rubric:

Homework = 25%
Quiz = 25%
Exam = 50%
Final Exam = Final must be passed with a 70% or higher to challenge the National Registry Computer Based Test.
Total = 100%

Course Objectives

By the completion date of the course, the EMT candidates will be able to:

- ☐ (CO1) Identify the components of the emergency response system.
- ☐ (CO2) Describe the aspects of health and safety that have an impact on performance in EMS.
- ☐ (CO3) Utilize appropriate medical and legal terminology.
- ☐ (CO4) Correctly identify anatomical structures in the body on assessing patients.
- ☐ (CO5) Differentiate normal from abnormal functions of the systems in the body as evidenced by common signs and symptoms.
- ☐ (CO6) Evaluate scenes for safety and identification of resources needed
- ☐ (CO7) Compare and contrast patient presentations of wellness, illness and trauma, denoting differences that are common among patients due to age, gender, race and medical history.
- ☐ (CO8) Differentiate among common medical and traumatic emergencies.
- ☐ (CO9) Initiate appropriate treatment and transport plans.
- ☐ (CO10) Reassess initial plans of treatment and transport, making adjustments when required.
- ☐ (CO11) Appropriately chart patient care and interventions with detailed documentation.
- ☐ (CO12) Evaluate patient responses to treatment plans and give adequate report to higher-level providers and hospital nurses and doctors.
